

Flyer Requirements

These are the requirements for the flyers that are created in the first chapter of computer Applications class.

Flyers must have

- A heading 1 and a heading 2
- Something center OR right aligned
- A minimum of 3 different font sizes
- Bullets, that are changed to something other than just dots
- Something **bold**, something *italicized*, and something underlined
- The font has to be changed on some text
- The style set, theme colors, and theme fonts have to be changed
- You have to have done something with the line spacing (i.e. remove space after a paragraph, or change the spacing number)
- You have to have a picture, formatted with a picture style
- You have to have a page border
- You have to change the document properties
