

# Graphic Arts – Careers assignment

---

## **Task**

There are many careers that can be pursued with a degree in graphic arts. Your task is to find information about a career that deals with Graphic Arts, and develop a presentation in which your classmates will learn from you about this career.

## **Process**

You are to use the computer to find different careers that deal with the graphic arts field. Choose a career; try to find one that was not chosen by one of your classmates. Develop a short presentation – aim for about 5 minutes about this career. You may choose how you want to present the information to your classmates, whether it is through a PowerPoint, prezi, glogster, tagboard, etc. These will be presented at the end of the week.

## **Information**

Include information about the career, what they do, where you can work, where you can go to school to accomplish this, how much they get paid, and any other relevant information that you may find.
